About Find Help Lake County

Lake County, Illinois offers high-quality community resources for a broad spectrum of concerns, from teen pregnancy to uninsured families to substance abuse and those living with domestic violence. However, the very people who need these resources often do not know they even exist or how to find them. United Way of Lake County, with the support of local funding partners sought to change this.

Creating FindHelpLakeCounty.org allowed agencies looking to provide help with those desperately searching for help.
